Sexual and domestic violence victims in rural Arizona are especially challenged because there are fewer services and resources available to them. For many of these victims, KAAP is there last hope. Demand for services rise each year. Our emergency shelter, Child and Family Advocacy Center and prevention outreach programs play a vital part in our community and with your help together we can break the silence to end sexual and domestic violence.

For additional information and/or questions regarding KAAP's programs and the Corporate Sponsorship Fund raiser, feel free to contact Suzanne Clarke, Executive Director at 928-753-6222. Thank you in advance for your consideration and continued support to our organization and the victims that we serve.
